

## Why Would You Choose Us?

Quality, value and innovation- it's what we know and it's what we do. Jason has been building homes for Kiwi families for over 18 years, and we know what Kiwi families are looking for. Building a new home is probably the biggest investment you will make in your lifetime, and we understand that getting the best value for your money is important.

Each home we build is individual and created to suit your needs, lifestyle and budget. Your personal ideas, sketches and thoughts are an important part of the design and house planning process and assist us in creating the sense of individuality that will set your home apart from others.

Our innovation is matched by our flexibility. We'll work with you to tailor the package that's right for your lifestyle and budget. And we give you choices so that the house truly becomes your home. It's your home and we never lose sight of this.

## About Us

We are a construction company that specialises in meeting the needs of all our clients to the highest level of standard, with a special eye for the finer details.

JAW Construction Limited build beautiful, functional new homes Canterbury wide, designed specifically for local conditions and Kiwi lifestyles.

The Owner Jason Webb is the first person you will meet and the man who will always be on-site, we will guide you through every process completely pain free, it is about you and not the Builder.

## Who We Are

Owners Jason and Jess are a local Canterbury family they have 4 kids 2 boys and twin daughters and also 2 teenage cousins that have tagged in along the way. We see ourselves as down to earth genuine people who are very family orientated and have a huge passion and love for what we do and what the Jaw Construction Team bring.

Jason has been in the industry since he was a young teenager and has gone through all the channels from apprentice and through to a foreman and to where he is today, which is the director of his own company and feel they all bring in their own right of importance to making a great team.

The Jaw Construction Team is small we have a Team of 6, but we feel this works great at present for who we are and what we stand to be. I feel like it's a team small enough to care and work well together but big enough to deliver all that comes our way.

Jason as much as possible likes to remain on the tools with the team so that he is across everything that happens on site to ensure the message we deliver to our client's is transferred to site and throughout the build process.

*"I couldn't rate JAW Construction highly enough, great communication, very high quality."*

Chris Martin, Riverstone Drive

25 Tibbotts Drive, Rolleston

*"We Build the Home You Create the Memories"*

We have a very loyal dedicated Team that we are super proud of as it didn't happen overnight. We also along the way have developed some amazing relationships with our sub trades which is a massive key factor we believe in the overall smooth process of the build and the finished product.

We personally know how much the build process can mean to you and that your new house is set to be your central hub, a place that can create and hold a lot of memories so we do strive for and take a lot of pride in providing you with a positive building experience and a beautiful new home whether it's your first home, 2nd or 3rd or an Architectural Bespoke Masterpiece .
